

TERMS OF TOKEN SALE

Last updated: August 11, 2018

PLEASE READ THESE TERMS OF TOKEN SALE CAREFULLY. NOTE THAT SECTION 15 CONTAINS A BINDING ARBITRATION CLAUSE AND REPRESENTATIVE ACTION WAIVER, WHICH AFFECT YOUR LEGAL RIGHTS. IF YOU DO NOT AGREE TO THESE TERMS TOKEN SALE, DO NOT PURCHASE TOKENS.

This document acts as an agreed upon Terms of Token Sale (“Terms”) between you (“Purchaser”, “User”, “you”) and Alex Capital GmbH, registered in Germany with the registered address Neustadt 67433 - Germany (“Alex Capital GmbH”, “Company”, “we”, “us”), Service, provided by Alex Capital GmbH is Litenett (“Litenett”, “Service”). Each of you and the Company are a “Party”, and together the “Parties.” You accept these Terms when you purchase Alex Capital GmbH’s Litenetcoin (LNT) tokens (“LNT Tokens”, “Tokens”).

Litenettoken (LNT) - is a utility-token of Litenett ecosystem. This is an open source cryptographic token implemented on the Ethereum blockchain platform. The existence of this good maintains by smart contract developed by the Company and Ethereum blockchain developed by third parties. The Purchaser states that he knows all the aspects of such goods.

The LNT Tokens can be issued by the Company only once during token sale period and within the limits stipulated by token sale, i.e. no more than 300 000 000 items (including 18 digits displayed to the right of the decimal point). LNT Tokens issuance is technically impossible after token sale neither for the Company nor for any other persons including the developers of Ethereum. LNT Tokens functions are determined by standard ERC20 and possibilities included into smart contract LNT tokens of the Company – this is, for example, receiving and storing, termination (“burning”), transfer to the other user of Ethereum.

Some of those mentioned above of others sphere of application of LNT Tokens may appear in course of time – upon an initiative of the Company or without the participation and intention of the Company in accordance with blockchain technology. Since the moment of receiving of LNT Tokens by the Purchaser into its ownership for the aim of individual usage, the Company losses the possibility as well as instruments of full influence on LNT Tokens – since that moment LNT Tokens are considered to be Purchaser’s property, and the deal on the creative and transfer of such property form the Company to the Purchaser is considered to have been paid and legally closed.

LNT Tokens are proposed for utilitarian usage in the capacity of service fee payment (“Gas”, “Transactional gas”) in other independent product of the Company – Litenett platform and its derivatives (“Platform”). Transactional gas in the capacity of LNT Tokens is necessary to the Litenett system for making and confirmation of transactions.

Usage of Platform, including, but not limited to usage of LNT Tokens in Platform are guided by separate agreements with Litenett users. Litenett project will be issued in 2018. Company reserves the right to amend any of Platform features announced during token sale if ground of such amendments are insuperable and they could not be prevented by the Company. For example, the reason for such a correction could be legislation amendments, court decisions, amendments into politics of credit organizations and payment systems. So, LNT Tokens product is one of the type of permanent tickets (certificates, coupons) for making of specified

transactions on Platform in the future. That is why repeated usage of one and the same LNT Tokens for payment of Gas is not permitted.

And for this reason the Company only registers and cancels (redeems, satisfactions) LNT Tokens within a framework of Platform when LNT Tokens are used as Gas, i.e. LNT cannot be considered as digital assets, virtual currency or something similar. The token sale is the form of pre-order for usage of Platform. Blockchain was determined as database for keeping of data about release of good, its movement and redemption due to the fact of its reliability (permanence guaranteed by decentralizing) and popularity. Purchase of LNT Tokens is subject to these Terms.

By purchasing LNT Tokens from us, you will be bound by these Terms and all terms incorporated by reference. If you have any questions regarding these Terms, please contact a LNT Tokens sales team at info@litenett.com.

You and the Company agree as follows:

Company may request to provide evidence of payment from Purchaser.

Since LNT Tokens are sold for crypto currency, but Hard Cap is determined in USD, justifiable overrun of Hard Cap is deemed allowable within margin related to exchange rate fluctuations, volatility (thence amount of collected funds may exceed Hard Cap for not less than 1 business day). Such overrun of Hard Cap does not result the Company obligations to cancel some LNT tokens purchase.

(b) Any use of LNT Tokens will be governed primarily by other applicable terms and policies, [which will be available on the Site or affiliated sites upon the distribution of the LNT Tokens] (collectively, “Alex Capital GmbH Terms of Use”). total tokens sales amount during Sale Period. Rules of the events may be published at Litenett.com, in White Paper or announced to Purchaser by any other means.

(e) Terms of Token Sale, Terms of Service and Privacy Policy are a single set of rules which regulate the relationships between Purchaser and Alex Capital GmbH. You cannot accept it the partially, this set of rules should be accepted in full.

(f) Should any conflict between Terms of Token Sale and Terms of Service, Terms of Token Sale shall prevail.

(g) Should any conflict between Terms of Service and Privacy Policy, Terms of Service shall prevail.

(h) In case of any discrepancies between Terms of Token Sale, Terms of Service, Privacy Policy and German law, the priority of German law is indisputable. Absence of rules regulating relationship between the Company and the Purchaser within the Terms of Token Sale, Terms of Service, Privacy Policy are complemented by German legislation.

(i) Alex Capital GmbH has the right to enter into agreement with any of Purchasers on special conditions (including commercial conditions) which may be different from those stipulated by this Terms.

3. Purchase Procedure.

Purchase procedure will largely depend on the time of transfer of the funds for the purpose of the Token purchase:

(a) Purchase of LNT Tokens requires a creation of the Account on the Site.

(b) If you transfer the fund for the purpose of purchasing LNT Tokens to your Account on or before May, 14 2018, the funds will be treated as a deposit and you would be required to manually complete the purchase due to the additional bonuses available for purchases over certain amounts. If you fail to purchase LNT Tokens at the time the bonuses are offered, you would be deemed to purchase LNT Tokens at the highest price available at the end of the token sale. The number of purchased LNT Tokens shall be determined based on the total amount you used for the purchase of the LNT Tokens with applicable bonuses available to you, and/or total amount of your transfer you made for the purpose of purchasing LNT Tokens if you fail to make a purchase during the time when bonuses were offered.

(c) If you transfer funds for the purpose of purchasing LNT Tokens to your Account on or after May, 14, 2018, your funds will be treated as a payment for LNT Tokens and bonuses available at the time of payment will apply to your purchase automatically when receipt of your payment is confirmed. The number of purchased LNT Tokens shall be determined based on the total amount received by Company for the purpose of purchasing LNT Tokens and applicable bonuses available to you at the time of receipt of your payment.

(d) Prior to distribution of LNT Tokens on the site of litenet.com, you are required to provide an address of the third party digital wallet (“External Wallet”), where your purchased LNT Tokens would be distributed to and complete necessary steps to connect your External Wallet to the Account according to the instructions placed by Company in your Account prior

to the distribution of the LNT Tokens. The External Wallet must support the ERC-20 token standard. For any assistance with the setup of the External Wallet, Purchaser shall contact info@litenett.com.

(e) Following the successful purchase, the information about purchased LNT Tokens will be reflected within 72 hours in your Account and External Wallet if provided by you inside of your Account. The purchased LNT Tokens would be available for withdrawal upon distribution by Alex Capital GmbH as set forth in Sections 4 and 5 of these Terms.

(f) The Company reserves the right and can transfer the right to sell tokens during ICO through specialized trading platforms, such as Kickico.com. In this case, the sale rules and terms of the platform, through which you buy LNT tokens, are applied.

4. Timeframe of Distribution.

(a) Distributes LNT tokens to the Purchaser bought by it from the Purchaser's account on the Site into External Wallet is initiated by the Company during 10 business days since the end of token sale on any provided grounds of end of token sale:

- 1) maturing of last stipulated day of public sale of LNT tokens;
- 2) sum of selling of LNT tokens is equal to the one stipulated by Hard Cap.
- 3) operation of maximum technical limit of LNT tokens issuing.
- 4) on any other ground which was not provided previously.

Such distribution of LNT tokens does not require a separate application from the Purchaser to the Company. Within 10 business days mentioned above the Company can still process LNT Tokens purchases since payments can be processed with considerable delay. The Company starts to cancel still outstanding income if their total value after end of token sale has already exceeded 1,5% of Hard Cap or since the end of token sale have passed more than 30 business days.

(b) In the special context of the good the transfer of LNT tokens to External Wallet provided by the Purchaser in Account on the Site is the event and fact of successful delivery of good to the Purchaser by the Company and considers as confirmation of accepting of respective quality good in respective volume by the Purchaser from the Company.

From that moment the deal on sale of LNT tokens between the Company and the Purchaser is considered to have been closed with the all of characteristics of finality, unconditionality and irrevocability of this deal, and Parties' obligations is considered to have been performed in a proper way and fully. This term does not depend on the current condition of LNT tokens (whether they are active or inert in accordance with subparagraph d) of this paragraph) or condition of term of LNT tokens receiving (before maturity or on time in accordance with subparagraph a) and e) of this paragraph).

LNT tokens must to be the variety of digital property which operates on blockchain technology Ethereum in accordance with the standards and guidelines digital property of its kind with all the consequences that come with it – this is basic characteristic which ought to be in accordance with the LNT token as the good to satisfy the needs of the Purchaser in its purchase from the Company. Both Parties of these Terms of Token Sale agree and stipulate

that from the moment of transfer of LNT tokens from the Company to the External Wallet provided by the Purchaser in its Account on Site, the company and the Purchaser have no claims and demands against each other.

(c) Distribution of LNT tokens at the time stipulated by subparagraph a) on this paragraph is carried out if only the Purchaser provided its External Wallet in its Account on the Site (in accordance with paragraph 5 of these Terms of Token Sale) necessary for receiving of LNT tokens bought by it. In case the Purchaser did not provide such address at the time of tokens distribution stipulated by subparagraph a) on this paragraph, all tokens bought by the Purchaser are transferred to the Company temporary storage until claiming of such LNT tokens personally by the Purchaser.

For the aim of such late claiming the Purchaser sends application in free form at info@litenett.com from email which was used for registration of Account on Site. Such late claiming is possible during one calendar year since the end of token sale. After expiring of that time LNT tokens paid by the Purchaser are considered to have been unclaimed and shall become property of the Company.

On the last day before the end of LNT Tokens issue at the level of the Company's smart contract (the final date is Febr. 11, 2019) those LNT Tokens which have not been transferred into External Wallet of their owners are counted irrespective of whether there is activity (unblocking) or inactivity (blocking) of such LNT Tokens at the time referred. After that respective number of LNT Tokens is issued by one transaction into special temporary Company's Ethereum address. And then the Company continues transactions of LNT Tokens to its Purchasers from its own temporary ETH address just in case if there is possibility to transfer LNT Tokens from one address into another, i.e. just after activation (unblocking) of LNT Tokens if such LNT Tokens have not been activated yet (still have been blocked) at the time referred.

LNT tokens unclaimed in the time stipulated by subparagraph a) on this paragraph as well as the actions with LNT tokens taken by the Company on the conditions of this paragraph have the same legal implications in respect of completeness and undeniability of deal which is stipulated in subparagraph b) of this deal. By reason of the Company has possibility of single-shot issue of LNT tokens only during token sale and within of certain restrictions (as in regard of the sum as well as in respect of maximum amount of issued tokens which is regulated by smart contract of LNT tokens). So, purchasing of LNT tokens in itself by some of Purchaser even without of transfer of LNT tokens into some External Wallet affects irreparably on commercial activity of the Company, token sale process and profiting from token sale. Knowing that, the Company ask the Purchaser not to buy LNT tokens if the Purchaser doubts in worthwhileness in such buying in order for "not take the seat" of other Purchaser, since "amount of seat" is severely restricted and limited.

(d) The Purchaser has the right to submit a request to the Company for early transfer of LNT tokens bought by it from its Account on the Site to the External Wallet provided by the Purchaser. The Company has the right to reply to the request for an indefinite amount of time. The first same transaction in the Ethereum blockchain should not occur before 14 May 2018. Such Purchaser request means accelerated phase-out of LNT tokens purchase cancellation right as well as cancellation of refund sum paid by the Purchaser for respective LNT tokens in accordance with information in the Account on the Site, since all the LNT tokens transaction reflected in smart contract and blockchain Ethereum cannot be cancelled,

refunded or corrected in some other way. This is the one of key feature of LNT tokens as good which known for the Purchaser and with which it agrees and understands.

Sending of such request by the Purchaser to the Company among others is order of the Purchaser for early onset of all the events provided by subparagraph b) of this paragraph. The Company has the right to impose restrictions in regard of minimal purchase of LNT Tokens which the Purchaser may receive prematurely in accordance with this paragraph. In such cases LNT Tokens will be transferred in External Wallet provided by the Purchaser within the time-limit fixed by the subparagraph a) of this paragraph, despite Purchaser's requests sent to the Company.

These restrictions are related with the expenses in cryptocurrency Ethereum (ETH) for initial issuance of LNT Tokens from smart contract in External Wallet, which the Company bears under rules of Ethereum blockchain (LNT Tokens are used).

(e) The Company has the right to deliver LNT Tokens in External Wallet provided to the Company by the Purchaser initially in inactivated (blocked) form for the aims of countering of fraud and speculation on LNT Tokens, as well as for possibility to correctly finalize all the settlement before the definitive finalization of issue of LNT Tokens under smart contract (further inaccessibility of this possibility for the Company). This temporary circumstance does not affect on global properties and only means the impossibility of making further transactions of LNT tokens from External Wallet for a certain period of time. The Company one-time activates (unblocks) all the issued LNT tokens at a time provided by subparagraph a) of this paragraph. It is stipulated by LNT tokens smart contract that LNT Tokens can be inactivated (blocked) only at the moment of their initial issue and activation (unblocking) of LNT Tokens can be performed only once without the possibility of deactivation (blocking) of activated (unblocked) LNT Tokens. Information about current conditions of LNT Tokens may be taken from LNT tokens smart contract in blockchain Ethereum.

(f) Transactions of LNT Tokens into External Wallet provided by the Purchaser are subjected to number LNT Tokens priorities system. The more LNT Tokens the Purchaser is going to withdraw the more priority is given to such an operation on getting of LNT Tokens by such Purchaser among others purchasers in the queue of operations which the Company forms in Ethereum blockchain under Company's smart contract. Concrete term for getting of LNT Tokens into External Wallet which the Purchaser indicated in its Site Account is not regularized. The Company does its best to do this as soon as possible but it depends on possibilities, load and stability of Ethereum blockchain. If there is inaccessibility, failures or crashes of Ethereum blockchain and impossibility of well-timed transferring of LNT Tokens in time provided by subparagraph a) of this paragraph, then further interaction with the Purchaser in regard of getting of bought LNT Tokens will be carried out by the company under the terms set out in subparagraph c) of this paragraph.

5. Receipt of LNT Tokens, responsibility and Risks.

(a) On the date of distribution, purchased LNT Tokens will be distributed by Company to the External Wallet of the Purchaser if one is provided, or become available for withdrawal in the Account. Failure to provide a correct address of the External Wallet will result in the loss of purchased LNT Tokens, which shall be the sole responsibility of the Purchaser.

Failure to provide the External Wallet or to complete its set up, will delay the withdrawal of the purchased LNT Tokens, which shall be a sole responsibility of Purchaser.

Purchaser shall be responsible for implementing reasonable measures for securing the External Wallet, vault or other storage mechanism Purchaser decides to use to receive and hold Tokens outside of the Account, including any requisite private key(s) or other credentials necessary to access such storage mechanism(s). If Purchaser's private key(s) or other access credentials are lost, Purchaser may lose access to the purchased LNT Tokens. Company shall not be responsible for any such losses.

(b) The Purchaser is obliged (and guaranties in full its material obligation) to perform refundment of LNT Tokens in favor of the Company which were superfluously or mistakenly obtained in number equal to such superfluously or mistakenly obtained LNT Tokens.

Such situation may take place be due to the technical failure of Company's systems which provide issue and distribution of LNT Tokens to their Purchasers. The Purchaser has the right to ask the Company for compensation for commission fee which is charged in Ethereum blockchain because of and after respective refundment of such LNT Tokens (given that the fee mentioned above does not exceed average values recommended by Ethereum blockchain at the time of LNT Tokens refundment). The Purchaser is obliged to transfer LNT Tokens back during 5 calendar days from the day of sending of Company claim on respective refundment (the Company will provide its ETH address for such transfer of LNT Tokens) to the Purchaser's email which is a login for Purchaser's Site Account. The Purchaser transfers LNT Tokens which were superfluously or mistakenly obtained to the Company when they are activated (unblocked) if at the time of receiving of Company's claim such LNT Tokens still are not active (blocked).

(c) The Purchaser knows organization and principles of two-factor authentication technology (2FA). The Purchaser bears risks of loss of access to his funds and purchased LNT Tokens at the time of turning on of 2FA which the Purchaser turns on in its Site Account. The Company does not compensate to the Purchaser its material losses resulting from loss of access to its Site Account owing to operation of 2FA which has been launched by the Purchaser.

6. Terms and Conditions of LNT Token.

Also, the LNT Token terms and conditions are as set forth in the White Paper http://litenett.com/WP_Litenett_EN.pdf (since it is custom for blockchain community in respect of sale of goods which are similar to LNT Tokens) located at <http://Litenett.com>, which terms are incorporated hereto by reference.

7. Cancellation; Refusal of Purchase Requests.

(a) The purchase of LNT Tokens from Company is final upon the distribution of LNT Tokens and there will be no refunds or cancellations except as specifically provided in these Terms. However, prior to the distribution of LNT Tokens, purchaser may request a refund by contacting Company at info@litenett.com. In addition, Company reserves the right to cancel any LNT Token purchase or refuse any purchase requests at Company's sole discretion for any reason. In such case, Company will issue a refund in the same form of payments as was

made by you and to the same wallet address, bank account, or a third party payment processor where your funds were transferred from. We may deduct the transaction cost from the refund amount, if any. In the case of force majeure, the refund is made without deduction of any fees or commissions.

(b) On security grounds the Company has the right to refuse to return payments made by you as the deposit of funds, if the payments details of their sending to us are different with the requisites given by you for receipt of the requested refund.

The Purchaser shall be solely liable for the risks of losses of its funds in relation with mentioned Company right (for example, in most cases of transferring of funds from exchanges the subsequent return into exchanges addresses leads to loss of funds).

(c) The Company has the right to refuse the Purchaser to cancel the purchase of LNT Tokens which have not been transferred to External Wallet provided to the Company by the Purchaser if since the day of the purchase 5 business days have passed or 5 business days remain until the end of tokens sale. This fact is due to public characteristics of token sale, which provide for the Company the possibility of gaining of profit from issue of LNT Tokens in limited value and once for all the time of existing of LNT Tokens. The sale of LNT Tokens even without their transfer to External Wallet reflect on statistical measures of token sale. In case of delay of cancel of accomplished purchase LNT Tokens the losses of the company may exceed the amount of funds refunding by the Purchaser owing to risk of loss of profit. The Company may not be in time to sale again those LNT Tokens which were released on Site after cancel of purchase, till the end of token sale. In this regard, the Purchaser agrees with its obligation to take final decision about LNT Tokens purchase before depositing its fund in the Account on the Site. Due to the same reasons the Company has the right not to cancel purchases and not to refund after end of token sale on any ground. The Purchaser is obliged to control its balance and process of token sale in order that timely ask for refund unused money (apart from that initially the deposits must be carried out on the ground of irreversible decision on buying of LNT Tokens).

(d) The Company returns of payments initiated after the end of token sale or violating the paragraph 4a) of these rules. The Purchaser shall be solely liable for the risks of returns expenses mentioned in subparagraph a) of this paragraph as well as risks of total loss of its funds mentioned in subparagraph b) of this paragraph.

(e) Funds received by the Company which were not recognized and which the Company cannot return to the transferor (due to lack of payment details or high risks of loss) are property of the Company till the Purchaser's application on that matter. The Company does not process the funds as well as not refund those transferred to the Company made through means which were not announced as official and not stipulated within token sale. In all such cases the Purchaser is obliged to apply to address arisen situations to info@litenett.com.
